

LIBTECS

Circulation System

The Sapphire Staff station series is designed for converting, programming and identifying library labels in books, magazines etc.

SAPPHIRE HYBRID (EM / RFID) STAFF STATION

Seamless integration of technologies

The Sapphire Hybrid (EM/RFID) Staff station uses both technologies EM and RFID (HF) with optional software for conversion.

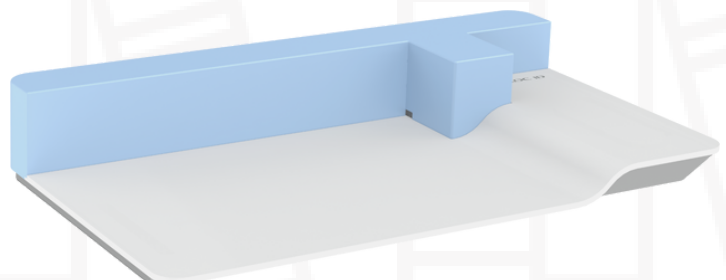

The Sapphire Hybrid (EM/RFID) Staff station can operate as stand-alone or in host mode.

Design and functionality

The ergonomic design, the use of sustainable materials and the capacitive touch panel guarantee perfect use of this unit. By using LIS (LED Information Service) the unit gives detailed status information to the user about the status of the working process.

The workpad distinguishes 3 color modes:

- BLUE: in operation
- GREEN: access granted
- RED: access not granted

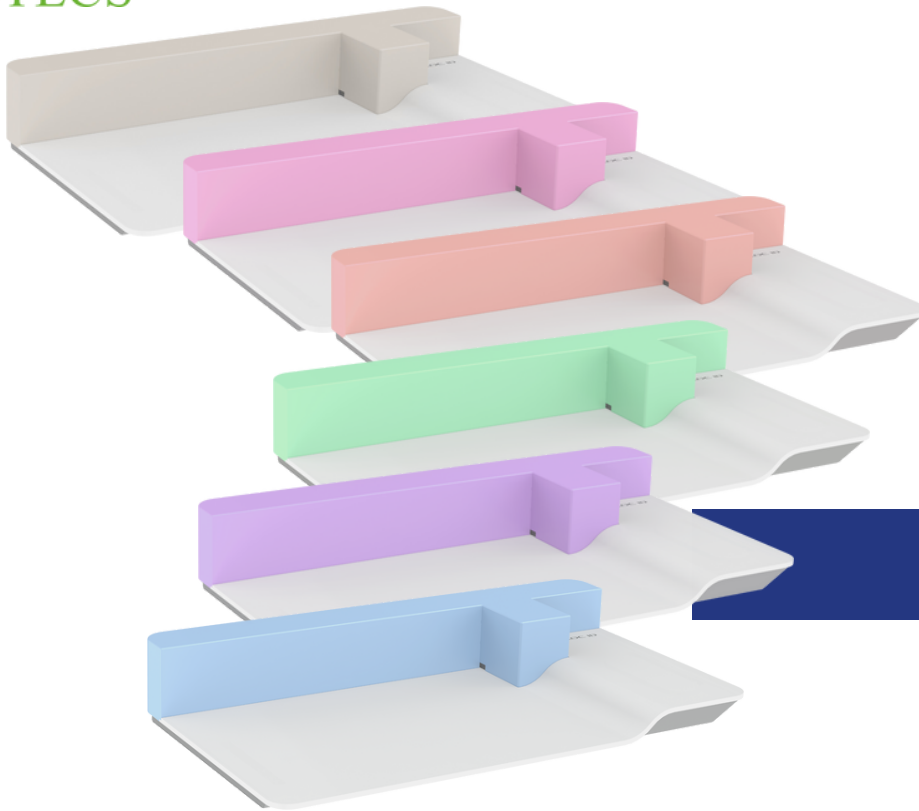

LIBTECS

Security

Specifications

Dimensions

Height: 112 mm

Width : 544 mm

Depth : 358 mm

Material

Stainless steel, PS, high-impact composite

Weight

12 kg

Functions

- EM activation / deactivation: Check-in / check-out
- RFID: Set / Reset EAS bit or AFI: Check-in / check-out for Books / Magazines / Media

Compatibility

- Stand alone / host control mode
- USB interface for communication with the library circulation software (LMS)

Certifications

CE / EMC

Item identification

RFID (HF) reader (HF tags)

Item protection

EM technology (EM tags)

Unit: 12 V DC 2A

Power adapter:

100 – 240V, 0,55-0,3 A

60 / 50 Hz

Environmental facts: Temperature: + 10°C < > 45°C
